BLOOD POISONING.

A Nurse's Experience.

There are thousands of people suffering [illegible] who have obtained no help. Hundreds of others who first let [illegible] have tried Dr. Ayer's Sarsaparilla and found perfect healing. One of these is A. B. Parker, of Ogdensburg, Texas, relates the following experience:

"About two years ago, I nursed a lady [illegible] dying and finally died from [illegible] blood disease. I must have contracted [illegible] for shortly after her death I had a large sore on my arm. [illegible] on my person. I doctored for a long [illegible] with several specialists, who [illegible] blood medicines; but, in spite of [illegible] I could do the sores would [illegible] grow worse, were painful, [illegible] and only getting worse all the time. At last, I purchased six bottles of Ayer's Sarsaparilla, thinking I would [illegible] much trust. Before the first bottle was taken I noticed a decided improvement, and by the time the second bottle was used the sores had begun to look healthier and to heal. Before the six bottles had been taken, the ulcers were healed, the [illegible] and my health was better than it had been for years. I have been well ever since. I had rather have one bottle of Dr. Ayer's Sarsaparilla than three of any other kind."

This is but one example of the remedial value of Dr. Ayer's Sarsaparilla in all forms of blood disease. There is no other blood medicine that cures so promptly, so surely and so thoroughly. After nearly half a century of test and trial, it is the standard medicine of the world for all diseases of the blood. Sores, ulcers, boils, tetter, rheumatism, scrofula and every other bloodlike disease is conquered by Dr. Ayer's Sarsaparilla. The success of this [illegible] has caused many imitations to be put on the market. Imitation remedies work imitation cures. The unequaled testimony is that "one bottle of Dr. Ayer's Sarsaparilla is worth three of any other kind." If you are interested in knowing more about this [illegible] for some trouble of yours, write to the [illegible] Mass. Write for it.

Ont more afore my dancin days wuz over.

The woods at's hill he's cut away seemed growin some new to them,
The youngsters what wuz boys as 'in 'at [illegible] ordish men.
And all the girls 'at then wuz girls—I saw 'em one and all,
As plain as then, the middle sized, the short and fat and tall,
And 'peared like, I dasht-a "Tucker" for 'em up and down the wall
As jest as 'fore my dancin days wuz over.

WAR WILL FOLLOW.

The joint resolution passed by Congress on Tuesday will be found in another column. It means war and this will follow unless Spain accepts the advice of her friends and yields in time to the demands of the United States. The resolution passed by both Branches of Congress demands that Spain withdraw from Cuba at once and authorizes the President to use the Army and Navy of the United States to carry the provisions of the resolution into effect.

War now appears certain, as it seems hardly possible that Spain will surrender without a struggle. It may be some days before the first gun is fired, as the President will first submit an ultimatum to Spain. He may delay for a few days before these demands is received.

The American people stand as one man in favor of driving the Spaniard from the Western Hemisphere. His record here has been one of cruelty, treachery and assassination. The Americans have become weary of seeing women and children butchered and starved to death. For the past twenty years the Spanish policy on the island of Cuba has been a constant menace to this Republic. Strutting Spaniards have heaped insult after insult on Americans and the American flag, and the United States have given Spain plenty of rope, provided her with every opportunity to settle the Cuban question without interference. Spain has had these affairs with sacred and inviolable hands. Now the crisis has been reached with the result that Spain promptly complies with the demands of the United States she will be driven from Cuba and probably from the Philippine Islands as well.

The European powers and the Pope are anxious for peace and will endeavor to induce Spain to accept the inevitable and avoid a conflict. They have pointed out to Spain that a war with the United States means war with Cuba, Porto Rico and the Philippine Islands. Spain has been told that if she is compelled to fight she must fight on American soil and in the waters of the Philippines and in the waters of the United States. Spain is poorly fixed for a war with the United States. Her navy is in no condition to cope with the American navy and her army is poorly equipped and is in no condition to fight a country that spends millions on millions in every effort to put a powerful army in the field. This is the first time in the history of the United States that the country was ever ready for war. The Army and Navy are in splendid condition and the people are anxious to meet the Spaniard. Spain has been told that if she is compelled to fight she must fight on American soil and in the waters of the United States

"ASLEEP!"

Nothing so appeals to a mother's heart as the sight of her little one's face. This is doubly true when the white lips, the feverish brow, the blue lines beneath the eyes and the thin little hands tell the pathetic story that baby is ill. To the child that comes into the world robust and healthy the ordinary ills of childhood are not a serious menace; but to the weak, puny baby with the seeds of disease implanted in its little body even before birth, they are a serious matter and frequently mean baby's death.

The woman who wants a strong, healthy baby must see to it that she does not suffer from weakness and disease of the important and delicate organs concerned in motherhood. Dr. Pierce's Favorite Prescription acts directly on these organs, allaying inflammation, healing ulceration and soothing pain. It fits a woman for wifehood and motherhood. It banishes the discomforts of the period of anticipation and makes baby's entry to the world easy and almost painless. It insures the newcomer a rich and an ample supply of nourishment. It aids maternity of its perils. It has cured many a sickly home by filling it with the happy laughter of healthy children. Over 680,000 women have testified to its marvelous merits. It is the discovery of an eminent and skilful specialist. In Dr. Pierce, for thirty years chief consulting Physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., sufferers from woman's peculiar weaknesses and diseases find a ready, kind and skilful adviser. All correspondence strictly confidential. DIMPLES MADE TO ORDER.

A New York Damsel Who Was Disappointed in the Manufactured Article.

A special dispatch from New York brings the interesting information that a "dimple manufacturing institute" for $5.00 known as the professional beautifier does not, has returned $200 of her money because the professional beautifier does not [illegible] for the investment.

It seems to be only one step, naturally, to the establishment of a dimple manufacturing institute in New York. The interest in the subject is evinced by the numerous applications and inquiries received by the professional beautifier. Many of these letters contain stamps for the purpose of securing one of the pamphlets containing the professional beautifier's directions for producing dimples. Others write to the professional beautifier asking for information as to the cost of the dimple manufacturing institute. Still
